The Department of Chemistry at the Maharaja Sayajirao University, established in 1949 is one of the premier institutions in the western part of India. It is a known centre for learning, Centre for Advanced Studies recognized by UGC and currently supported by DST under FIST-II program.

This symposium is being organized in the honor of Professor Sujit Baran Kumar, who is attaining superannuation and will end his active service in June 2022 in the department of chemistry. Professor Sujit Baran Kumar has been contributing to the Department since 2003 as an active academician and researcher. His main research interests include Synthetic Coordination Chemistry, Magneto-structural correlation, Bio-inorganic Chemistry and Catalysis. At this juncture, several renowned researchers have agreed to deliver talks and grace the occasion.
