ABOUT THE AKAL UNIVERSITY

Established under the Puniab Government Act No. 25 (2015) and approved under the Section 2(f) of UGC Act (1956) to confer degrees. Akal University has a mission and vision to establish permanent peace in the world through values based scientific education and spiritual rejuvenation creating good global citizens. With blessings from Sant Baba Attar Singh Ji Maharaj, the establishment of Akal University under the leader ship of Baba Iqbal Singh Ji by the Kalgidhar Trust (Baru Sahib) is culmination of what the Tenth Sikh Guru, Guru Gobind Singh Ji, prophesied about three centuries ago. Akal University has been mandated to carry out activities pertaining to the three basic principles of higher education: Teaching, Learning and Research. The University is successfully running UG (Honours), PG (Honours) and PhD programs in Mathematics, Physics, Chemistry, Botany, Zoology, Psychology, English, Punjabi, Commerce, Economics, Social sciences, and UG in Sri Guru Granth Sahib Studies. Striving for excellence in teaching and research, the University also offers BCA (Hons), B.Tech. (CSE), MBA and four years integrated B.Sc.-B.Ed./B.A.-B.Ed program. The University has faculty members who are highly qualified with exceptionally good academic records. The university has a firm resolve to provide a drugfree environment and to create a disciplined campus. A magnificent building with ultra-modern facilities for teaching and research is the hallmark of the University.

ABOUT DEPARTMENT OF CHEMISTRY, AU

The Department of Chemistry has been established to foster education and research in Chemistry to meet the growing demand for qualified and efficient individuals in the country and across the globe. The department offers undergraduate (B.Sc. Honours), postgraduate (M.Sc. Honours), and Doctor of Philosophy (Ph.D.) degrees. The department is supported by an exceptionally qualified and motivated faculty with a strong commitment to teaching and research.

OBJECTIVES AND SCOPE

To protect our Mother Nature from the everincreasing chemical pollutants scientists are restlessly developing/modifying chemical processes to make them sustainable. Under this purview, interactions with distinguished scientists might bring opportunity to learn many new things of today's research. With this aims and objective in mind, we have planned to organize three days 'International Conference on Recent Trends in Green Chemistry (ICRTGC-2021)".

REGISTRATION

Registration for the conference is **free** of charge. Faculty members, research scholars and UG/PG students from universities, academic/research institutes and colleges as well as employees from industries can attend this conference via registering themselves using the link provided below. After successful participation, all participants will get e-certificate. The last date for the registration is 20th September, 2021.

POSTER PRESENTATION

UG/PG students can present poster and compete for category-1, research associates/scholars can compete for category-2 and faculties can compete for category-3. Along with e-poster, all the presenters must send one page write up (A4, Times New Roman, 12, single) describing their poster. Those will be evaluated by a group of experts and three best presenters from each category will be awarded in the valedictory function. De Gruyter Publisher, Germany is sponsoring all these prizes.
