

Faculty Development Program

CHEMICAL SCIENCES: RECENT APPROACHES & APPLICATIONS

(CSRAA-2022)

06th - June to 10th - June - 2022 (Virtual Mode)

 <https://cuchd.in/csraa>

Organized by

Department Of Chemistry ,University Institute Of Sciences (UIS)
Chandigarh University - India

About Chandigarh University:

Chandigarh University is a leading Indian institution offering its students a unique amalgamation of professional and academic excellence. Today, Chandigarh University is among the top 5% universities of India to be accredited with the prestigious NAAC A+ Grade and rank among the top 1.7% institutions in Asia as per the QS World Rankings for the Asian region. The dual vision of innovation and excellence has made the University students' favorite destination to fulfill their academic and career goals.

About Department of Chemistry (UIS):

The discipline of chemistry is enormous and constantly changing, with various subfields. The Department of Chemistry in University Institute of Sciences was established in 2017. The department has efficient and highly competent faculty members whose work is internationally recognized. It provides inspirational and experimental learning through globally recognized curriculum focusing the industrial needs. The methodology at Department of Chemistry ensures a perfect balance of theory and practical learning throughout the course. Since its inception, the Department of Chemistry has been committed to cutting-edge research in a variety of disciplines

About The Collaborative Body:

The Indian Chemical Society is one of the chief Scientific Society of India. It was founded in 1924 with Prafulla Chandra Ray as its founding president. It was founded as a national forum for the community of chemists and members of allied disciplines in the country. The same year the society started to publish its "Quarterly Journal of Indian Chemical Society" which is currently known as Journal of Indian Chemical Society. The driving force behind its establishment was the nationalistic spirit prevailing in India under British rule. J. N. Mukherjee, J.C. Ghosh and S.S. Bhatnagar while carrying out their research work in the University College, London in 1919 for the D.Sc. Degree, took a decision that after coming back to India their endeavor would be to establish a Chemical Society like the Chemical

About the FDP:

The aim of the 5-days faculty development program (FDP) with the theme **“Chemical Sciences: Recent Approaches & Applications”** is to bring together eminent scientists, researchers, chemists and faculty from various universities, colleges, research institutes, industries on a single podium to serve their knowledge and vitrine their research in the embryonic arenas of chemical sciences. The FDP aims to generate a space for presentation of recent fallouts in various kinds of Nobel scientific work in the field of chemistry, biochemistry, materials, green Chemistry, nanotechnology etc.

Registration Fee: Rs 300/- only

Last Date of Registration: 03rd June, 2022.
