### **Webinar Internship Course on Process Safety and Environment (Air, Water and Solid) – fundamentals and management**

The Indian Chemical Society, a premier Scientific Society of India, was founded in 1924, as National Forum for the community of chemists and members of allied disciplines in the country. The driving force behind its establishment was the nationalistic spirit prevailing in India under British rule. J. N. Mukherjee, J.C. Ghosh and S.S. Bhatnagar while carrying out their research work in the University College, London in 1919 for the D.Sc. Degree, took a decision that after coming back to India their endeavor would be to establish a Chemical Society like the Chemical Society of London. Their cherished dream was transformed into a reality with active cooperation of many of the leading personalities in the country, and the Indian Chemical Society was founded on May 9, 1924, as a registered Society, with Acharya Prafulla Chandra Ray, the doyen of Indian Chemists, as the first President. One of the major objectives of the Society is the spreading and uplifting the technical knowledge to the graduate, postgraduate, research scholar and technical personnel from industries. In the COVID 19 situation it was decided by the Council of the Indian Chemical Society that experts from academic institutes and industries will train on an important subject on Process Safety and Environment (Air, Water and Solid) – fundamentals and management in Winter and Summer vacation of the Institute using Webinar.

The Winter Webinar will provide in-depth knowledge on the Process Safety and Environment – fundamentals, design and application aspects. The classes will be held in the evening for 3 days in a weekfortwomonths(April–May, 2021).

It will also serve

- i. To create awareness amongst students about the industrial demands and role of chemists and engineers towards the ProcessPlant;**
- ii. To develop a safety culture towards the process plant and to the society**
- iii. To provide a platform to interact with experts from academic institutes and industries**
- iv. To build technical capabilities amongst students to meet the needs of process industry and also society, i.e., manpower development.**

This Webinar course/internship will be more than 45 hours internship and recognized by the statutory authorities for career advancement.

### **Who should attend**

- 1. Undergraduate, postgraduate and research scholar of Chemistry, Environmental and Ecological science, Biotechnology and microbiology**
- 2. Undergraduate, post graduate and research scholar of Chemical, environmental, Ecological Engineering and also other branches of engineering.**
- 3. All personnel involved in Process Industries such as production, project, process, HSE etc.**

## Course Fees

**i. For students : Rs.1000/-**

**ii. For industrial personnel : Rs.4000/-**

The course will start from 2<sup>nd</sup> week of April 2021 and details will be available in our website. The participants will be informed through their E-mail and group WhatsApp.

The last date of registration: 10<sup>th</sup> April 2021

## Bank details

<u>NEFT/RTGS/ECS/Other Modes Details</u>	
Name of Vendor	Indian Chemical Society
Bank Account Number	11152790242
Nature of Account	Current
Name of Bank	State Bank of India
Branch Name	Manicktala, Kolkata
Branch Code	01715
IFSC Code	SBIN0001715
PAN No.	AAAANI1238H
MICR Code	700002062
IBAN No.	SBININBB492
Vendor Address	92, Acharya Prafulla Chandra Road Kolkata – 700 009
City	Kolkata
