

**Webinar Internship Course on
Emerging Trends in Nanomaterials for Different Device Architectures
(ETNDDA-2021)**

Indian Chemical Society

<http://indianchemicalsociety.com>

15th September to 28th November, 2021

Program Schedule for 25th & 26th September, 2021

Date : Saturday, 25th Sept. 2021	
6:30 – 7:30 PM	Metal Oxide Nano Porous Ceramic Thin Film Sensors for Industrial and Nuclear Applications Dr. Debdulal Saha Principal Scientist, Functional Materials & Devices Division, CSIR-CGCRI
7.45 – 8.45 PM	Modified Nanostructures for Energy Harvesting Applications Dr. Praveen Kumar Assistant Professor, Indian Association for the Cultivation of Science, Kolkata-700032, India
Date : Sunday, 26th Sept. 2021	
6:30 – 7:30 PM	Fundamental of Nanostructured Materials for Advanced Solar Cell Technology Dr. Debasis De Assistant Professor, Energy Institute, Bengaluru (Centre of Rajiv Gandhi Institute of Petroleum Technology)
7.45 – 8.45 PM	Effect of Morphology on Charge Storage Properties of Nanomaterial Composites Dr. Sachindra Nath Das Assistant Professor, Department of Instrumentation Science, Jadavpur University, Jadavpur, India
