

Celebration of the 101st Foundation Day of the Indian Chemical Society

INDIA'S
CENTURY OF
CHEMISTRY

09th May, 2024

Venue: Auditorium of Meghnad Saha Bhavan
University College of Science & Technology
92, A P C Road, Kolkata – 700 009

~Organized by~

Indian Chemical Society, Kolkata

About Indian Chemical Society

The Indian Chemical Society, a premier Scientific Society of India, was founded in 1924, as National Forum for the community of chemists and members of allied disciplines in the country. The driving force behind its establishment was the nationalistic spirit prevailing in India under British rule. J. N. Mukherjee, J. C. Ghosh and S. S. Bhatnagar while carrying out their research work in the University College, London in 1919 for the D.Sc. Degree, took a decision that after coming back to India their endeavor would be to establish a Chemical Society like the Chemical Society of London. Their cherished dream was transformed into a reality with active cooperation of many of the leading personalities in the country, and the Indian Chemical Society was founded on May 9, 1924, as a registered Society, with Acharya Prafulla Chandra Ray, the doyen of Indian Chemists, as the first President.

You will be pleased to know that the Indian Chemical Society is going to celebrate its 101st Foundation Day on May 09, 2024 at the Auditorium of Meghnad Saha Bhavan, University College of Science & Technology, 92, A P C Road, Kolkata – 700 009.

Registration Fees: Rs.100/-
